WHAT SETS US APART

Our People

We hire caregivers who have chosen this profession because they wanted to and not because they had to. Any company can have well-structured care programs and health services but without the competent workforce to execute them, the company cannot succeed. Pledge Private Duty invests in its personnel through efficient hiring, selection and training. After all, it's the people that make the company.

Our Technology

We equip our caregivers and clients with state-of-the-art tools that help them in their recovery or health management. The technology that Pledge Private Duty uses enables clients to measure and track their health with the goal to improve their over-all quality of life at home or wherever the setting they maybe.

OUR MISSION

Our mission is to deliver the advantages of home care to private homes, respite care centers, long-term care facilities and a variety of other settings. The flexibility of Home Care makes it ideal for any patient with unique care requirements.

ABOUT US

Pledge Private Duty is a family owned company. Every family has an elderly member and would always want a caregiver that they can trust and rely on. We will always send caregivers who are professional, ethical, well mannered, and above all, respectful. We always send a caregiver to our clients after verifying the background, employment references, driver's license and personal references.

OUR SERVICES

At **Pledge Private Duty**, we provide specialized home care services. We administer personal care to our clients following a plan of care that is designed for each client.
